Short Term Course

BASICS PHOTOGRAPHY

SYLLABUS

2019-20

21

Course Description

This course will help the students become well rounded in the fundamentals of digital photography. Four areas of instruction will be emphasized: How cameras work, how composition works, how lighting works, how to use photo editing software. Students will, generally, receive basic instruction, demonstration, and see samples of the desired outcomes, at the beginning of each period. They will be allowed to go outside and shoot assignments, based on what they are learning. Perhaps the most useful part of classroom instruction will be daily reviews of photos students have shot the previous day(s). They will see what makes a successful photo and what does not.

At the end of this course, you will:

- Know how to use various features of the camera to have creative control of your photographs.
- Be able to decide what type of lighting to use in a given situation to produce optimum results.
- See how photographic composition can make or break a photograph
- Understand how to use photo editing software to improve the overall appearance of images

NEEDS AND RESOURCES

Learning Outcomes

To successfully complete this course, students must:

- Show up in class, on time!
- Pass course quizzes
- Complete assignments by given deadlines
- Cooperate with other students and staff to increase learning potential
- Take and Edit photos successfully using digital cameras and photo editing software
- Research a photographer and report on his (or her) style and impact on photography
- Take part in class discussions and critiques of photos presented in class.

Required Materials

To successfully complete this course, you will need:

- Access to a digital camera is essential! (Both Compact Digital Cameras or SLR Digital cameras are acceptable) *The class has 5 compact digital cameras students may use during class time. But with the size of each photography class between 35 and 40 students, that is a very small number!

Additional Resources

- It would be wise if students have a portable USB storage device so they will be able to download images from the computers to take home!
- The students are restricted to one gigabyte of memory on the school server. This will be quickly used up when shooting and downloading photos at school.

Course Topics

The course will cover the following topics:

1. Various Camera Modes and their uses
2. Flash Modes
3. ISO settings
4. White Balance
5. Lens Focal Length
6. Focusing Options
7. Portraiture
8. Landscape
9. Indoor Photography
10. Black and White (Monochrome)
11. Basic Techniques of Lighting (Including: Front, Side, Back, Defused, etc.)
12. Basic Photo Composition (Including: Rule of 3rds, Leading Lines, Framing Subjects, etc.)
13. Basic Photo Editing (Using Photoshop and Picasa)
14. Knowledge of Pixels, Mega Pixels, DPI, PPI
15. Practical

COURSE SCHEDULE

I will attempt to make a calendar for due dates of assignments, quizzes, etc. as soon as I am up and running on the school software!

POLICIES AND PROCEDURES

General Rules:

- Students are to handle all class equipment, (including computers, cameras, lights, etc.) with care.
- Cell phones, head phones, I-pods, etc. will not be allowed in class. (Either in the classroom or outside, when shooting)
- Students are to avoid shooting photos in or near other classrooms so they will not disrupt the teaching and learning of others.
- Students are not permitted to leave the school campus during class time to shoot photos.
- Food and beverages are not permitted in the classroom at any time.
- Class lab time is expected to be spent working on assignments. Students will not be allowed to defer shooting photos, or editing photos until a later time.
- Photos taken at home may only be counted for extra credit, and then only if a student has completed all of the other assignments for the class.

Topic 1;- To start the date normally and start preparation competitive exam centre for competitive exam centre to dry as soon as possible in college.

Design:- According to the goal policy of Rayat Shikshan Sanstha regarding the establishment of state service competitive examination centre, considering the poor condition of their college, since the enrolment rate of students from rural areas is high in our college, a simple examination centre should be started at a moderate cost. And the students should be guided in the state service competitive examination. - Resolution passed unanimously-

Topic 2. Discussing on Publicity College Competitive Examination Centre.

Design: Discussion to make flex and should prepare a notice Students. A flex should display outside for everyone to be information.

Topic 3. State Services Competitive Examination Admission Procedure and Application

Design: To discuss in the context – current academic year 2019-20 competitive admission should be done for third year students of this branch, this year. And also, competitive examination centre should be opened for all willing and needy students in order to take students who want to get admission in college and non-college- Resolution unanimously adopted -

Topic 4. To discuss the timely matter.

Subject matter The time will come to discuss this topic. In the said meeting the following issues were discussed and unanimously approved.

1. Competitive examination centre should be started as soon as possible during the festival. For this, generally, the competitive examination centre should be started from 1st August.
- 2.Those who wish to take advantage of the competitive examination centre except the third year students of the college should take the competitive examination centre fee of Rs.2000
3. Students outside the college should take the competitive examination centre charged Rs.5000 fee
- 4.The competitive examination centre notice should prepare the list of eligible and interested students and decide the admission.
5. The timings of competitive examination centre lecture will be conducted 11.30 1.30 every day and after that the sitting room will be available.
- 6.The time planning of the student in the competitive examination centre should be done properly and feedback from the faculty should be taken. And Action taken Report in feedback should be prepared.
