### **A Short Term Course in "Physical Fitness and Yoga"**

#### **Introduction**

Today competition in each field is so intense that nobody can escape from the hectic schedule of life. Earlier, a few decades ago, people used to work differently, enjoying the different color of life. But it is noticed now that people are working under stressful condition and without satisfaction, which is detrimental to their physical fitness. As a result they are suffering from much disease.

Physical fitness is very necessary for a healthy and tension free life. Physical fitness includes diet, exercise and sleep. These three basic things have their own importance in each individual's life and everyone should be sensible with regard to these for a healthy life.

Yoga is about your mind, body and soul these three things are supposed to connect in a way that is unique to yoga. Yoga makes you fit, partly because it works on both your physical and spiritual wellbeing

Physical well-being wholly depends upon a sound brain as all activities of our body are controlled by the mind. Any disturbance in the mind will

disturb the body giving rise to various abnormalities. So a sound sleep must for a healthy person. Thus, balanced diet, regular exercise and sound sleep are the prerequisites for sound physical fitness and physical fitness is the key to a productive and successful life.

Society's attitude towards health and fitness has changed over the past few years and we are all much more aware of the need to be positive about our health and recognize the importance of physical fitness then ever before.
