

Students from Downtrodden Community:

It is remarkable distinctive feature of college. Several students are from downtrodden community. Since, we have legacy of Karmveer Anna, our college takes special efforts for marginalized students which is our distinctiveness. The following table displays the student strength of all category wherein data of downtrodden students is outstanding. As per the following table, students of marginalized community are maximum as compare to general class. Downtrodden Girls Student Table 2

Girls are '**subaltern**' in Indian social structure. However, marginalized girls face triple oppression in social scenario. Basically, Girls are inferior in male-oriented society [first marginalization] later they face subjugation being born in downtrodden class [second marginalization] and they again face inferiority in male-dominated marginalized society [third marginalization]. Teachers attentively look after such girls and assist them in improving their situation. Such quantity is highly remarkable in college and we look it as an opportunity to implant seed of dream amongst them. Details are as below—

Downtrodden Students with Economically Weak Class

Although, they belong to general class their financial situation is critical as their parents are involved in lowest profession such as; driver,

Therefore, we claim that our 100% students belong to socially and economically downtrodden-class.
