Downtrodden Girls Student Table 2

Girls are '**subaltern**' in Indian social structure. However, marginalized girls face triple oppression in social scenario. Basically, Girls are inferior in male-oriented society [first marginalization] later they face subjugation being born in downtrodden class [second marginalization] and they again face inferiority in male-dominated marginalized society [third marginalization]. Teachers attentively look after such girls and assist them in improving their situation. Such quantity is highly remarkable in college and we look it as an opportunity to implant seed of dream amongst them. Details are as below—
