Certificate Course in Introduction To Data Science Level I

Report of Course Completion – 2021-22

Introduction:-

The "Certificate course in introduction to Data Science" (Level 1) for the student has been completed successfully for this year. The course took place for 40 Theory Lecture and 20 Practical's from December 20th 2021 to 19th April 2022, at 7.00pm to 8.00pm in online mode using Google meet, link will be share on WhatsApp group, on regular mode. Altogether 41 students enrolled their names for this course. The syllabus given to us has been completed with theory and practical. The exhibition of this course was also arranged from 25th April 2022 in our college. Moreover, we have also conducted an in internal exam (Theory & Practice) of this course.

I) Following are the objectives :-

1) To develop a broad academic and practical literacy in computer science, statistics, and optimization, with relevance in data science and artificial intelligence, so that students are able to critically select and apply appropriate methods and techniques to extract relevant and important information from data.

2) To provide strong core training so that graduates can adapt easily to changes and new demands from industry

3) To enable students to understand not only how to apply certain methods, but when and why they are appropriate

4) To integrate fields within computer science, optimization, and statistics to create adept and well-rounded data scientists.

II) Learning outcomes after studying the course , the students will be able to :-

1) Develop relevant programming abilities.

2) Demonstrate proficiency with statistical analysis of data.

3) Develop the ability to build and assess data-based models.

VII) Briefing Of the course :-

Data Science is a field of study that deals with the collection, analysis, and processing various data or information to extract solutions. It deals with the understanding of many structured and unstructured data with specialised knowledge to get the required insights. Only professionals having specialised knowledge in the field of Data Science can carry out these activities.

Data Science can be defined as a mixture of implementing various scientific activities such as mathematics, calculus, graphs, charts, algorithms, computer programs, and a lot more. It is that part of science which also requires knowledge about business or commerce related fields.

With the help of data science, professionals can extract very important pieces of information, insights, and other solutions that could have never been found from big raw data. Big companies all over the world require professionals with specialised knowledge in this field to provide valuable insights, decisions, or solutions from the big bulk data of their businesses.

These insights play a very major role in making big business decisions and also helps in implementing improvements in business activities. If you are interested or willing to make a career in the field of data science, this article will provide you with every single detail that you need to know before choosing your career. There are many colleges and universities in India that provide specialised courses and degrees in this field. But, to pursue any course in the field of data science, students should have subjects such as mathematics, computer applications, and programming as their core subject.

The introduction to Data Science level 1 for the Student was successfully completed this year. The course ran for 40 Theory Lectures and 20 Practicals from December 20th, 2021 to April 19th, 2022, at 7.00pm to 8.00pm in online mode using Google Meet, with a link shared on the WhatsApp group on a regular basis. In total, 41 students registered for this course. The syllabus we were given included both theory and practise. This course will also be on display in our college beginning April 25th, 2022. Furthermore, we conducted an internal exam (Theory & Practice) for this course. We are extremely grateful to Rayat Shikshan Sanstha, Satara, for their assistance.

Department of Economics
Certificate Course in Entrepreneurship Development (Economics)
Report of Course Completion – 2020-21

I) Introduction of the Course –

As a part of skill Development for the promotion of professionalism and inculcating competencies among the students. The Department of Economics decided to start Entrepreneurship Development Short term Course in 2020-21 at Certificate level. The purpose of the course is to our encourage students to acquire Entrepreneurship Skills, that why students can start their own businesses. The present Course

II) Objectives of the Course :-

1) To promote self-employment and Entrepreneurship culture among the students
2) To enhance the employability of educated youth through Entrepreneurship skill training
3) To empower student through self-help groups and entrepreneurship.

III) Learning outcomes-:

1) Think about Entrepreneurship among the students.
2) After studying the course, be able to students Think creatively and develop ideas for start-up
3) Create awareness about entrepreneurship among the student.
4) Develop idea-generation, creative and innovative skills
5) Develop skills in identifying business opportunities.
6) Know the parameters to assess opportunities and constraints for new business ideas

IV) High Lights of Syllabus

1) Introduction of Entrepreneurship
2) Entrepreneurship as a career choice
3) Entrepreneurs are Opportunity Seekers
4) Procedure for setting up Service and Trading Business

V) Examination Structure

Type of Exam	Theory	Practical/Project
Marks	75	25

VI) Other Information

I) Teaching Hours – 60 Hrs.

II) Course Tenure – 6 Months

III) Duration of Course- 28 August 2020 to 18 March 2021

VII) Students' Strength

X) Briefing of the short term Course -:

This Short Term course was conducted with the aim of developing the student's skills and creating self-entrepreneurship. Total 41 students of S.Y, T.Y B.A Economics participated in this course. This course was conducted for three month and half months where 60 Hours of teaching were conducted. Under this short term course exhibition was also conducted. The examination was conducted in the 75/25 pattern where 75 marks was awarded on the basic theory exam and 25 on the basic a practical /oral exams. Out of 31, 21 students were passed in the final exams. Taking guidance from the course one student got placed and one of our students became entrepreneur Certificates were given to the students who passed under this course.

The remaining student got placement in the private sector the list is enrolled here with

Certificate course

in

Tally

2020-21

1. **Introduction –**

   The Certificate Course in Tally is designed for individuals who wish to develop their skills in accounting and finance using Tally software. The course aims to provide practical training in using Tally for accounting, bookkeeping, and financial management tasks. The course provides hands-on training and practical exercises to help students apply what they learn to real-world scenarios.

2. **Objective:** Following are the objective of the course -

   1) To provide students strong foundation in Tally Software and its various functionalities.

   2) To achieve practical skills and hands-on experience in using Tally for various accounting activities such as voucher entry, bank reconciliation, accrual adjustments, and financial statement generation.

   3) To enhance students' employability skills by providing necessary skills and knowledge to work as Tally data entry operators.

   4) To equip students with the ability to create a company and perform accounting activities using Tally independently, thereby boosting their confidence and self-reliance in the field of accounting and finance.

3. **Learning Outcomes:** After studying the course, students will be able to -

   1) Improved Knowledge and Understanding:

   2) Enhanced Practical Skills

   3) Increased Employability

Certificate Course in Tally – 2019-20

1. **Introduction –**

    The Certificate Course in Tally is designed for individuals who wish to develop their skills in accounting and finance using Tally software. The course aims to provide practical training in using Tally for accounting, bookkeeping, and financial management tasks. The course provides hands-on training and practical exercises to help students apply what they learn to real-world scenarios.

2. **Objective:** Following are the objective of the course -

    1) To provide students strong foundation in Tally Software and its various functionalities.

    2) To achieve practical skills and hands-on experience in using Tally for various accounting activities such as voucher entry, bank reconciliation, accrual adjustments, and financial statement generation.

    3) To enhance students' employability skills by providing necessary skills and knowledge to work as Tally data entry operators.

    4) To equip students with the ability to create a company and perform accounting activities using Tally independently, thereby boosting their confidence and self-reliance in the field of accounting and finance.

3. **Learning Outcomes:** After studying the course, students will be able to -

    1) Improved Knowledge and Understanding:

    2) Enhanced Practical Skills

    3) Increased Employability

    4) Higher Education Opportunities

4. **Syllabus Highlights**

    1) Introduction to Tally software and its various functionalities.

    2) Creating a company in Tally and setting up its configuration.

3) Understanding voucher entry, including the types of vouchers and their use.

4) Generating financial statements and reports in Tally software.

5) Practice sessions and hands-on experience in using Tally software.

6) Theoretical knowledge of accounting and finance, including basic concepts and principles.

5. Examination Structure

Type of Exam	Theory	Practical
Marks	70	30

6. Other Information

1) Teaching Hours – 44 Hrs.

2) Course Tenure – 1 Months

7. Student Strength – 50 Students

8. Duration of the Course – 10th December 2019 to 10th January 2020

9. Briefing of Course –

The course objectives include building a strong foundation in Tally software and equipping students with the ability to create a company and perform accounting activities using the software independently. The syllabus included topics such as Voucher Entry, Financial Statement Generation, and Theoretical Knowledge of accounting and finance. The examination structure consisted of both theory and practical exams. The course was conducted over a period of three months, with 50 students enrolled, and certificates were distributed.
